UMBRELLA CYBER

Limited

"YOUR CYBER SECURITY, COVERED"

ABOUT US

We are a team made up of specialist ex-military personnel with a common ground...we are all passionate about improving cyber security.

Our armed forces veterans have all served in highly technical and sophisticated roles ranging from ICS communications to cyber security for some of the UK's most high readiness military units and emergency response units and in most cases, long hour, hostile and high tempo environments.

Together as a team, our skillset, diverse experiences, and range of industry standard qualifications enable Umbrella Cyber to be your protective top cover in all aspects of cyber security.

Ethos: Honesty | Integrity | Discretion

MISSION STATEMENT

"By specialising and implementing advanced layered security architectures, we ensure comprehensive protection for our clients' data, assets, and intellectual property."

"This proactive approach significantly minimises the risk of cyberattacks and empowers our clients to operate with confidence"

QUALIFICATIONS

- Certified Penetration Tester (CREST)
- Crest Practitioner Security Analyst (CPSA)
- Information Systems Security Professional (CISSP)
- GIAC Certified Pen Tester (GPEN)
- GIAC Incident Response Handler (GCIH)
- GIAC Enterprise Defender (GCED)
- Certified Ethical Hacker (CEH)
- Certified Security Testing Associate (CSTA)
- GDPR Practitioner
- Cyber Essentials Basic / Plus Assessor

CYBER
ESSENTIALS

"Navigating a large global organisation, like Adobe, through the Cyber Essentials Plus certification can be challenging. The Security processes and controls are already in place, the mapping of these controls to local requirements is an art! Umbrella where our Copilots through the process. Their knowledge and understanding is exceptional. Their flexibility in accommodating global time zones and working practice made our life easy. Maintaining a sense of humour when US English doesn't exactly translate to UK English got us through! Looking forward to continuing our ongoing business relationship"

Antony Stranack **ADOBE**
